

# INNOVATIVE PRODUCT OF THE YEAR

Sponsored by Sinc Kitchens

## JOINT WINNERS!

### Fisher & Paykel

Frances O'Kane, Sinc Kitchens with Kevin Riordan and Colleen McStravick, Fisher & Paykel

### Flanagan Fittings

Paul Flanagan, Flanagan Fittings with Frances O'Kane, Sinc Kitchens

'We are absolutely delighted to receive recognition for our fantastic Integrated Column Refrigeration Suite. Having only recently launched into the Studio, designers and architect market this is a wonderful recognition and makes us very excited for the future.'

Kevin Riordan, Fisher & Paykel

'Sinc Kitchens were delighted to sponsor Innovative Product of the Year Award. As a company that places great value in innovation, this was an award we felt very passionate about.

Innovation is essential within every industry, and it's our duty as a collective to recognise and applaud those who challenge the accepted way of doing things. Both Fisher & Paykel and Flanagan Fittings were deserving winners and their products both bring something new to the industry'

Oisin O'Kane, Sinc Kitchens

'We were delighted to win. The BLUM MERIVOBOX is a completely revolutionary solution for the industry as it allows people to go from entry level all the way to premium level without any changes in manufacturing process.'

# MIKE KEENAN LIFETIME ACHIEVEMENT AWARD

Sponsored by Flanagan Fittings

## Martin O'Connor, Timbercraft

Martin and Ann O'Connor, Timbercraft with Paul Flanagan, Flanagan Fittings

'I am honoured and humbled to accept this award. I would like to thank Audrey Keenan and Robert Ashe and their team for putting me forward for this nomination now aptly called The Mike Keenan Lifetime Achievement.

The main person I would like to thank and who is also responsible for achieving this award with me is my wife Ann. Ann has been the Stallworth behind the business whilst looking after our five children.

I would also like to thank my sister Sheila who worked with me in the early years and also for more than 30 years each, Joe Tutty and Vincent Balfe.

Since we started in a small shed beside my mother's pub in 1979 we have witnessed many changes in the industry, from the simple single cathedral oak door to the sophisticated designs and products that are available today.

Looking to the future, my daughter Aine, who has been working with me through her time in school and college, is now part of the senior management team.

It gives Ann and I great comfort to know that we are handing over the reins to Aine to secure the company for the future.'

Martin O'Conner, Timbercraft

'A huge congratulations to Martin, I've known him for over 30 years and this win was very well deserved. We feel that this was a fantastic event for networking and it was great to have the opportunity to catch up with all of our suppliers and customers.'
